

**ReBuild Together**

**ReBuild Well**

# *Wildfire Recovery Collaboration*

More than **2700** structures in VC damaged by Thomas, Hill, & Woolsey Fires

Participated in more than **15** fire recovery events to support EE rebuild

**4** CAHP rebates applications submitted

More than **10** homes ready to rebuild with EE measures above Title 24 code

The Ventura County Regional Energy Alliance (VCREA) and Southern California Gas Company (SoCalGas) partnered to offer post-incident recovery support for Ventura County residents and encourage energy efficient (EE) recovery and rebuild efforts. No-cost energy audits by Home Upgrade program, and safety assessments from the County. Increased energy efficiency incentives are offered through the California Advanced Home Program (CAHP) to help offset part of the costs of rebuilding environmentally friendly, energy efficient homes and communities.

## **Energy & Safety Assessment Results:**

**Damage from smoke, ash, and soot found in every home assessed across Ventura County**

- Building envelope penetration (windows, doors, ducts)
- Impacts to mechanical and ventilation equipment
- Impacts for appliances and attic insulation
- Visible health and safety issues
- Comfort complaints
