What is the main gap you see this Partnership filling for your region?
What are public agencies in your region asking for?
COVID-19 changed the dynamic of the working world and virtual services are becoming the norm; how is this an opportunity for energy efficiency program deployment?
Who is underserved in your region and how does your organization work with these groups? Do you see our partnership playing a role?
What strategies have you deployed to engage diverse types of public agencies in your region?
We’ve only just begun, so where should our partnerships go next?
Let’s Keep it Going!
Thank you!
